## About Me

I am a person who is really positive about every aspect of life. I have been coding in C++ for quite a while now. Lately, I have been working with Java and Spring Boot in order to create web applications.

Other than coding I'm also interested in music. Singing and producing music has always been my hobby. Also, I am a volleyball player and have been to interschool tournaments. Playing in a team have made me learn more about coordination and cooperation.
